

WELL WATER QUALITY SAMPLING AGREEMENT

CURTIS WATER & WELL TESTING

This agreement grants permission for a technician from **Curtis Water & Well Testing** to enter the property listed below for the purpose of collecting a water sample from the property's well system.

Well Address

Planned Sampling Date

The property owner acknowledges and understands that in order to obtain a clean, representative groundwater sample, it may be necessary to operate the well for an extended period of time prior to sampling. This process ensures that stagnant or standing water is purged and the collected sample accurately reflects the true quality of water in the aquifer.

The property owner further acknowledges that Curtis Water & Well Testing technicians will exercise reasonable care to avoid disturbance or damage to property while performing the sampling procedure; however, the technician nor Curtis Water & Well Testing is responsible for damage caused through ordinary and reasonable use of property owner's items such as doors, gates, faucets, ladders, or floors.

The property owner agrees to render payment for the requested water quality test, per the sampling schedule and payment schedule defined below, prior to or at time of sampling.
